

HighPoint RocketStor 6000 Series SAS and SATA Hard Drive Compatibility List

2016/11/28

This document was not designed to serve as a comprehensive device testing report, but rather as a general reference for compatibility between current generation HighPoint RocketStor 6000 Series RAID Storage Enclosures, and a selection of commercially available hard disk drives.

RAID Applications:

The disks included in this document are recommended for RAID configurations. Specific drive series may have special requirements or restrictions, which are provided under the Special Notice column. As a general rule, only enterprise and NAS class hard disks should be used in RAID configurations.

Non-RAID Applications:

There are no specific limitations or restrictions for non-RAID applications.

SAS Hard Drive Compatibility list:

SAS Hard Drives		
Mfr.	Product Series	Special notice
Seagate	Enterprise Capacity 3.5	
Mfr.	Product Series	Special notice
HGST	Ultrastar C10K900	

SATA Hard Drive Compatibility list:

SATA Hard Drives		
Mfr.	Product Series	Special notice
WD	Gold	
WD	RE	
WD	Red Pro	The WD Red Pro series can only be used in configurations up to 16 disks.
WD	Red	The WD Red series can only be used in configurations up to 8 disks.
Mfr.	Product Series	Special notice
Seagate	Enterprise Capacity 3.5 (Helium)	
Seagate	Enterprise Capacity 3.5	
Seagate	NAS	The NAS series can only be used in configurations up to 16 disks.
Seagate	Enterprise NAS	
Seagate	Surveillance	
Mfr.	Product Series	Special notice
HGST	Ultrastar He8	
HGST	Ultrastar He6	
HGST	Ultrastar 7K6000	
Mfr.	Product Series	Special notice
Toshiba	Enterprise Capacity	
Toshiba	Enterprise Cloud	

Note: The table lists hard disk series suitable for RAID applications. To view information about individual models, please click the links provided for each disk series. There are no specific limitations when selecting disks suitable for non-RAID configurations.
