

HighPoint ENDS the Luxury Cost of True Hardware RAID *"Bringing True Hardware RAID to the Masses"*

Milpitas, CA – Hardware RAID has always been symbolic of high performance, robust and reliable storage appliances, but the high "luxury" unit costs will leave many facing the dilemma of price competitiveness versus an ideal storage solution.

HighPoint is the pioneer of storage solutions like ATA RAID, multi-channel SATA RAID 5, the RAID storage experts for 2, 4 and 8 channel SATA RAID solutions has the answer. HighPoint's revolutionary pricing structure for the RocketRAID 3120, eliminates the luxury expense factor, without sacrificing any of the benefits of true hardware RAID.
