

SAS Performance with RAID5 Protection at Cost Effective SATA Pricing

Milpitas, CA – HighPoint unleashes Cost-Effective SAS Connectivity Plus RAID5 capable controller series - the RocketRAID 2600. The RocketRAID 2600 SAS RAID Series controllers are the industry's most cost effective SAS RAID controllers for SMB, advance computer enthusiast that want to experience the evolution of SCSI technology starting at a low price point of \$139.

The RocketRAID 2600 SAS RAID Series offers internal and external connectivity to support SAS/SATA hard drives for applications including desktops and workstations with PCI-Express bus technology. All RocketRAID 2600 SAS series support RAID levels (0, 1, 5, 10 and JBOD) for storage performance and data protection.

Unparallel Cost vs. Performance

At a starting price point of \$139 the RocketRAID 2600 SAS RAID Series brings a revolutionary pricing structure for SAS RAID5 controllers enabling customers to utilize the industry's fastest SAS hard drives for numerous applications which include capturing uncompressed 8bit video, CDP, gaming, workstation and advance desktop application.

Unprecedented Cost-Effective Storage (SAS and SATA)

The RocketRAID 2600 SAS RAID Series offers the flexibility to be able to support either 15,000 rpm SAS hard drives for performance or lower cost SATA hard drives for capacity. The ability to deploy either type of drives allows the computer system to be optimized for specific application and cost requirements.

Disk with SAS interfaces are designed to meet the performance and reliability characteristics required for RAID systems. SAS drives retain all of the reliability and performance advantages of traditional SCSI and while eliminating the weaknesses of the parallel interface.

RocketRAID 2600 SAS RAID Series

Model	RocketRAID 2644X4	RocketRAID 2640X4	RocketRAID 2640X1
Port Count	1	4	4
Hard Disk Support	4 SAS/SATA	4 SAS/SATA	4 SAS/SATA
PCI Express Lanes	4	4	1
RAID Levels	0,1,5,10,JBOD	0,1,5,10,JBOD	0,1,5,10,JBOD
Connector Type	External mini-SAS	Internal	Internal
Low profile	Yes	Yes	Yes
Cables included	No	Yes	Yes

What the industry is saying about the RocketRAID 2640x4
