Rocket 100

Rocket 100 is a dual-channel Ultra DMA/ATA 100 disk accelerator which has the world best-selling HPT 370/370A as its chipset. It is completely backward-compatible with 33MHz PCI systems or slower Ultra ATA66/33 drivers, and supports up to four Ultra ATA 100 drivers. With Rocket 100, it makes your new, fast drives even faster under Window 95/98/ME/NT/2000/XP. Its storage capacity is over 137GB.

Performance comparison:

Rocket 100 Specification

Host side interface	32bit, 33MHz/66MHz PCI
Disk interface	ATA100(IDE)
Data transfer rate	Up to 100MB/sec burst data transfer
Driver Support	Ultra ATA/100; Ultra ATA/66; Ultra ATA/33; EIDE
Number of IDE channels	2 channels
Allowed maximum disks connection	4 hard disks
Supported OSs	Windows 95/98/Me, Windows NT4.0, Windows 2000, Windows XP and Linux
Management tool	BIOS
Some highlight features	Supports ATA100 Bootable disk support Large LBA support with capacity exceeding 137GB
